

**R 299.5752 Toxicological and chemical-physical properties.**

**Rule 752.** (1) The toxicological and chemical-physical properties used to calculate generic and site-specific cleanup criteria under section 20120a of the act shall be as shown in table 4, except as provided in section 20120a(10) of the act, R 299.5706a(9), R 299.5750(1)(l) and R 299.5750(1)(o).

(2) Abbreviations used in table 4 have the following meanings when used in this rule:

(a) "Ionizing" denotes those substances for which the generic cleanup criteria in R 299.5746 and R 299.5748 shall not apply if the soil pH is significantly different from 6.8. The generic cleanup criteria are based on a default soil pH of 6.8 and the assumption that the neutral species of the hazardous substance is present.

(b) "NA" means not available.

(c) "NR" means not relevant.
